Rich,

I tried and was denied access to this. I'm going to call the hotline to see if they can give me access.

Thanks,
Linda

Linda,

can you get these maps printed off the share drive. I don't have access to them and I think Kelley and Rupert will be travelling to the site. Once you get them printed, let me know and I will give you instructions on how to get them to me.

thanks.

Rich

Subject: Dimock Pre-Drill Data

I plotted the available data for pre drill information that I had in my possession. The red dots with white labels on the map is all the pre drill data. The blue/pink dots with pink labels are the residents that we already had plotted. It seems some of the information may not correlate with each other in terms of locations. There are 2 files; Dimock11.pdf and Dimock12.pdf. Dimock11.pdf is a zoomed out version showing locations of pre-drill data that were included but are not in the area of Dimock (so just a general overview map). Dimock12.pdf is an aerial map with a zoomed in version of the data within the Dimock area. Gretchen Steve has printed these maps for me in the past and is more than willing to print a copy. If you request here to print Dimock12.pdf at the ANSI E size it would be at a useful scale and quality. I am out

tomorrow and not able to print the map, however wanted to get the information to you today. If you have any questions feel free to let me know.

Thanks
